WLTP figures shown are for comparability purposes; only compare figures with vehicles tested to the same technical procedures. Actual real world driving results may vary depending on factors such as weather conditions, driving styles, vehicle load or any accessories fitted after registration. WLTP is a new test used for fuel consumption and CO2 figures however until April 2020 the CO2 figures are based on the outgoing (NEDC) test cycle which will be used to calculate vehicle tax on first registration. Please contact your Alpine Centre for WLTP figures for any selected options. Renault UK Limited t/a Alpine does not offer tax advice and recommends that all Company Car Drivers consult their own accountant with regards to their particular tax position. All prices shown are the Manufacturer's Recommended Retail Prices. "On the road" price includes delivery to the dealer premises, number plates, a one-litre bottle of oil, 12 months government road fund licence (depending on CO2 emissions) and First Registration Fee at £55. Other goods or services supplied by agreement between the customer and the Dealer are not included.

Alpine reserves the right to modify its models without notice, including their characteristics, specifications, equipment and accessories. Brochures inevitably become out of date or inaccurate in some respects, in that such characteristics, specifications equipment, or accessories may be changed after the publication date given below and can differ from the descriptions given or the photos displayed. It is therefore necessary to check with your Alpine Centre before purchasing any product that the characteristics, specifications, equipment or accessories of the vehicle on order are as advertised.
